October 27, 2018

Greetings from the Honourable Merrilee Fullerton  
Minister of Training, Colleges and Universities

On behalf of the Government of Ontario and the Ministry of Training, Colleges and Universities, I'd like to welcome students and parents to this year's Student Life Expo.

With high school behind you, the possibilities are seemingly endless. It's your time to consider next steps as you prepare for your future. A postsecondary education? An apprenticeship? Or, time abroad to travel or further your studies? Student Life Expo is a great all-in-one way to do the research, see what's available and start to plan.

As students take those next steps toward a rewarding career, we want to ensure that they and everyone in Ontario have an opportunity to succeed and prosper. Our government is committed to bringing quality jobs back to this province, and my focus will be on making sure that the people of Ontario are prepared for those jobs.

Thank you to the organizers of this event for providing students – and their parents – with such a wide variety of information and resources to successfully ease the transition to life after high school. I encourage students to also check out the Ontario.ca website for additional information about postsecondary pathways, what jobs have strong employment prospects, ideas for how to finance postsecondary education and much more.

I send my best wishes to all of the students in achieving their education and career goals.

Sincerely,

A handwritten signature in blue ink that reads 'M Fullerton'.

The Honourable Merrilee Fullerton  
Minister of Training, Colleges and Universities
